Northwestern Road Doing Business Right Along.

THE SWITCHMEN AWAITING ORDERS

Which Will Proceed from the Supreme Council of All the Railway Workmen—A Meeting That Means Much for the Chicago Railways—A Talk with Grand Master Sweeney—The World's Fair and Labor—The Cokers Getting Help from Operator Railway—Labor Notes.

CHICAGO, May 16.—Everything was like a Sunday morning in the Chicago and Northwestern yards yesterday when the sun rose. Affairs were, in fact, even quieter than is usual on that day. As the day wore on and trains began to arrive the hum of work commenced, until by 10 o'clock the new switchmen were handling business as rapidly as the old crews. At the company's headquarters it was stated that all stations out of Chicago on the line were manned by full forces. At Winona three new crews did more work than four old crews had accomplished on any day before for several weeks and cleared the work up at an earlier hour than usual. The reports from the Wisconsin division showed that up to midnight of May 14 fifty freight trains were handled.

What Manager Whitman Says. Last night General Manager J. M. Whitman said as he started for home: "There is practically nothing new. As to the men we have discharged, I am sincerely sorry for them. I worked up from the ranks myself and know what it means. In the ranks of the discharged men are many capable men, whose only fault is that they were led away by bad influences. In many cases these men were forced to join reckless or unnecessary strikes, although they were not in sympathy with them. I propose to reneatuate all such men for whom I can find places if they desire to work for the company. In my opinion the shock is over and I anticipate no trouble whatever."

An Interview with Sweeney. Grand Master Sweeney and Vice Grand Master Downey, of the Switchmen's Mutual Aid association, called upon General Manager Whitman yesterday morning to inquire why the general discharge had been ordered by the company, and what it meant. They were cordially received, and Mr. Whitman replied by handing Mr. Sweeney a copy of the official statement giving the reasons for the action, such as has appeared in the newspapers, and said that the full explanation was contained therein. Mr. Sweeney wished to discuss the matter, but was told by Mr. Whitman that he would be willing to receive any communication that Mr. Sweeney might wish to make, provided the same was made in writing, so that no possible misunderstanding as to what was said could occur. This Mr. Sweeney declined to do.

ASSOCIATION VIEW OF THE TROUBLE

Grand Master Sweeney Makes Some Comments on the Lockout.

Grand Master Sweeney and other officials of the Switchmen's association were at the switchmen's headquarters yesterday. Mr. Sweeney said: "It must not be imagined that because we are so quiet we are already beaten in this fight. The switchmen are never altogether beaten, though they may seem temporarily to have got the worst of it. Switchmen may be discharged from our company, but they will eventually turn up in another, and even those who take their places soon move in the same groove and have the same ideas. The real trouble with the Northwestern is that the company has nearly always been unfortunate in their selection of yardmasters. A good yardmaster can in almost every instance prevent any trouble among the switchmen. He will himself discipline men and adjust all little difficulties without going to the officials and making a mountain out of a mole hill."

The Difficulty With McNerney.

"The fault with McNerney was that he tried to lord it over the men too much and gave himself airs. The men were willing to put up with a little of it, but when they found he was trying for a higher position they thought he would be unbearable and considered it time to stop him. Superintendent Miller has been opposed to men who are members of the association for some time, and he loses no opportunity to get rid of them." Mr. Sweeney also spoke of the case of Brown, yardmaster at Western avenue, who he said, was very abusive, and also a drinking man, but the company stood by him, notwithstanding these facts.

Wages of the Switchmen.

He continued: "The officers of the road claim that a switchman can make from \$75 to \$150 per month, and that there are only a few men earning as low as \$75. This is not correct. The highest wage a switchman can earn is \$30 an hour, and at this rate, working twenty-six days in the month, he would get \$78. The most a man can earn, and that by putting in thirty-six days in the month, or ten days overtime, is about \$104, and then he has nearly to fill himself to do it. Then he can only work overtime when it suits the company, and not when it suits himself."

Depends on the Supreme Council.

Everything now depends on the action of the supreme council of the United Order of Railway Employees which meets today. The four organizations in this case are the Brotherhood of Locomotive Firemen, the Brotherhood of Railway Carpenters, the Brotherhood of Trainmen and the Switchmen's Mutual Aid association. The firemen, conductors and switchmen's organizations are in the membership to their own proper class, but the trainmen take in brakemen, conductors, switchmen, yardmasters and baggage masters.

Trainmen Acting Without Orders.

W. A. Sheehan, secretary of the Brotherhood of Trainmen, was seen at Galesburg last night and said: "The members of the Brotherhood of Trainmen are manning switches and filling the places of the discharged switchmen. They are doing so on their own responsibility and not under the orders of the Brotherhood of Trainmen. What the Brotherhood will do depends on the decision of the supreme council which meets in Chicago to-morrow." It will be seen by the above that the fight may only have

legah. If the supreme council does not sustain the railway there is a pack of trouble ahead for the railways in the west.

Situation at Milwaukee.

MILWAUKEE, Wis., May 16.—Business in the Northwestern railway yards went as quietly as usual yesterday, although there was very much less accomplished. Passenger trains arrived and left on time, and in the freight yards the company had succeeded in getting men enough to keep eight of its twenty-two switch engines at work. General Agent George says he will soon have a full crew. The discharged men are making no demonstration and refrain from hanging about the yards in accordance with the request of their leaders.

HELPING THE COKE STRIKERS.

One of Frick's Competitors Fighting the Big Operator—The Situation. SCOTTSDALE, Pa., May 16.—W. J. Rainey, the Wilcox coke operator, who is worth millions now, seems to be with the strike body and soul. He is engaged in a fight with Frick and other operators, and will use the strikers as the weapon to gain his point. Yesterday he gave \$4,000 to the strikers, who were permitted to send labor agents among his employees to obtain funds to sustain the Frick and McClure strikers.

Claims That Do Not Agree.

An official of the Frick company claimed last night that they employ 4,000 men now at work, while labor leaders assert that not more than half that number are working in the region, and that the 15,000 strikers are still firm.

World's Fair Labor Question.

CHICAGO, May 16.—A joint conference was held last night between a delegation of trades union men, headed by Thomas Morgan, and a committee of the World's fair directors, at which Morgan explained that the proposed minimum scale of wages for work at the fair did not mean that the men were to strike at 11b, for higher wages, but that the scale would be the maximum wage. This was not pledged, but Morgan said that since there is no minimum was also the maximum. There is a prospect now that the directory will agree to the proposition.

Davis Starts His Brickyard.

DENVER, Colo., May 16.—F. N. Davis started up his brickyard yesterday. An armed guard, consisting of ten deputy sheriffs, five policemen and twelve negroes, protected the men. All the labor organizations will attend the funeral of Kelly in a body, and trouble is feared for that day.

COCKERILL LEAVES "THE WORLD."

He Wants to Run a Newspaper on His Own Hook.

NEW YORK, May 16.—"Yes, I have left 'The World,'" said Col. John A. Cockerill to a reporter. "I have had this matter in contemplation for some time. I have been with 'The World' for several years and my relations there have always been pleasant. I do not intend to retire from the newspaper business, by any means. My withdrawal from 'The World' was merely to better my condition. I have long had a desire to own a newspaper in New York. It was on that account I left this step. I am not at liberty to say anything further as to my plans, but I am now making negotiations to this end."

Revisit in the Danville, Ill., Jail.

DANVILLE, Ill., May 16.—Turney Polk Phillips in the county jail was murdered Sunday afternoon by a prisoner named Jesse Thacker when trying to lock him up. Thacker dealt Phillips a terrific blow on the head with an iron window-weight, felling him to the ground, and then pulled the chain opening the cells of the other prisoners. Several of them rushed out and attacked Phillips, who had staggered to his feet in the meantime, and finally defeated himself. Young Newton, the sheriff's son, called his father, who quickly came to Phillips' aid and looked up the prisoners. Thacker is an old offender.

Fireman Killed at Cincinnati.

CINCINNATI, O., May 16.—The month-old establishment of the Cincinnati Moerslein Brewing company was greatly damaged by fire Thursday night. The property burned is the main structure of the concern, a four-story brick building with a frontage of 300 feet, extending back about 150 feet. The fire started in the middle of the building at the fourth floor, and spread in every direction. The beer, half fermented, ran down the driveway in rivulets into the street. Thousands of gallons of beer was thus wasted. The aggregate loss will approximate \$100,000, and is covered by insurance. Henry Smith, a fireman, was killed.

Bad News Dead a Week.

BUFFALO, N. Y., May 16.—There was a sensation at the United States hotel yesterday when a boarder named Jacob Botta was found dead in his bed. A horrible odor had been noticed all the morning, and was finally traced to Botta's room. The door was broken open and the body of Botta was found lying on the floor, his body was black and swollen, the stomach had burst open, and a black and bloody fluid was all over the bed and floor. Why the room had not been attended to was not explained. The man had been dead a week.

Commerce on the Lakes.

WASHINGTON CITY, May 16.—Superintendent Porter has issued advance copies of a bulletin shortly to be made public on transportation and the floating equipment on the great lakes, from which it appears that the total number of vessels operating on Dec. 31, 1890, was 2,764, the total gross tonnage, \$24,474, and the total net tonnage, 730,119. The estimated carrying capacity of these 2,764 vessels was 1,254,971 tons, the commercial valuation of which was \$65,809,730.

General Ben Know the Law.

BOSTON, May 16.—Gen. Butler has secured the release from jail, by a writ of personal privilege, of Mrs. Charlotte Johnson, who, by the sentence of Judge Carpenter, of the United States court, was serving her term for alleged perjury in this writ was used in this state was in 1884, and inquiry among the lawyers developed the fact that to many of them it was unknown.

A Battleship at the World's Fair.

WASHINGTON CITY, May 16.—The board of management of government exhibits was in session yesterday, and ordered the construction of a full-sized mimic battleship at the World's fair site at Chicago.

COMMISSIONER RAUM'S SON.

He Resigns His Position as Assistant Chief Clerk of the Pension Bureau.

WASHINGTON CITY, May 16.—The secretary of the interior has accepted the resignation of G. B. Raum Jr. assistant chief clerk of the pension bureau. It is understood that his resignation was called for, and was the direct result of using his influence and position to secure the appointment of persons to positions of honor in return for financial benefits received or promised. Interior department officials assert most emphatically that Geo. Raum, commissioner of pensions, is in no way responsible for the conduct of his son and that he was ignorant of the transaction which led to young Raum's resignation.

What Secretary Noble Says.

ST. LOUIS, Mo., May 16.—Secretary of the interior, John W. Noble, was shown the dispatch from Washington announcing the resignation of Geo. B. Raum Jr. from the pension office. The secretary said: "This dispatch is, I take it, all true, so far as the younger Raum is concerned. I asked for young Raum's resignation, and it was understood that it would not be withheld longer than yesterday. Young Raum had recently got into bad habits. He was a frequenter of pool rooms, and a card player. I cannot in any sense hold his father, Gen. Geo. B. Raum, responsible for the shortcomings of his son. Gen. Raum has my sincere sympathy."

RACED TO DEATH.

Neither Party Wanted to Take the Dust from the Other.

MILWAUKEE, Wis., May 16.—A race between a business man of this city and a farmer from Prospect Hill, beyond North Greenfield, Friday evening resulted in the tragic death of the farmer. The parties in the race were John D. Bowen, of the insurance firm of Nichols & Bowen, this city, Mr. and Mrs. Joseph Schackel, of North Greenfield, and a farmer, George Plumb. All were returning from the city Plumb in an empty wagon and the others in a carriage.

The Farmer's Back Broken.

The road was exceedingly dusty and neither party seemed inclined to take the dust from the other. A spirited race for first place resulted, both teams being put to the utmost speed. The race was nipped between the two several miles, and when the village was reached the carriage was a few feet in the lead. In front of McCullough's store in the little town is a rough plank platform, a foot or two high, used for unloading wagons Plumb's wagon struck this platform at full speed. He was thrown some distance and fell heavily to the ground, breaking his back and receiving internal injuries from which he died.

QUICK WAS TOO SUDDEN.

An Eight Weeks' Widow, He Marries a Doubtful Divorcée.

BURLINGTON, Iowa, May 16.—Two sensational suits have been filed in the district court by Charles S. Young, of Fort Madison, Iowa, against C. S. Quick, of this city, and his wife, Alice A. Quick. Some four weeks ago Quick, who had been a widower eight weeks or more, married Mrs. C. S. Young, of Fort Madison, who had been divorced but one week from her husband, who was employed in St. Louis, Mo. This former husband is the plaintiff, and denies having any knowledge of his wife's divorce prior to her marriage to Quick and suits for \$15,000 damages, charging Quick with seduction and the alienation of his wife's affections. The suit against Mrs. Quick (his former wife) is to set aside the decree of divorce obtained by her as he claims, by fraud.

Shot Dead by a Prince.

ST. PETERSBURG, May 16.—A dispatch from Batoum tells of a bloody tragedy which occurred in a court-room there. A man named Koupradze was on trial for robbing Prince Morkhanya of a pocket-book filled with bank notes. The prince offered to let Koupradze go, where he would disclose the hiding place of the stolen notes. The prisoner laughed scornfully at the offer, and followed up his rejection by kicking the nobleman. In his rage at the insult the prince drew a revolver and shot the man dead. The prince has been arrested.

The Brainer Institute Rules John L.

DENVER, Colo., May 16.—After the performance was over Thursday night John L. Sullivan, who is playing in this city, went out to "have a time with the boys." He wound up in Murphy's Exchange, where he met Pat Allen, a Colorado pugilist. He asked Pat if he thought he could fight, and without waiting a reply Sullivan proceeded to "do up" Allen in the most approved style. They were separated, but not before Allen had been knocked down twice. Sullivan was taken home by friends.

Might Have Been a Horror.

NEW YORK, May 16.—An accident occurred Friday to a train on the Long Island railway, while returning from the Gravesend races, which resulted in several persons being slightly injured. The train was composed of sixteen cars which were crowded to the doors. It is estimated that 1,500 persons were on the train. At one point the rails were spread and several cars left the track, but the engineer had slowed up, and the train was easily stopped.

Heavy Failure at Little Rock.

LITTLE ROCK, Ark., May 16.—The largest individual assignment that ever occurred in this state was announced Thursday. It was the assignment of Maj. John D. Adams, for the benefit of his creditors. His liabilities total \$200,000, and he owned \$400,000. The creditors will probably be paid in full. The failure is due to the stringency in the money market and failure to realize.

Stewart Holds Must Be Citizens.

NEW YORK, May 16.—In the action of Sarah Brannagh against William Smith to recover an interest in the estate of the late A. T. Stewart before a jury in the United States circuit court, Judge Wallace yesterday rendered a decision adverse to the plaintiff on the ground that she was not a resident of New York. He directed the jury to render a verdict for the defendant.

Fire at Howell, Mich.

GRAND RAPIDS, Mich., May 16.—A small boy's bonfire almost destroyed the village of Howell Friday. The village, containing 5,000 bushels of wheat belonging to the King Milling company, two livery stables, three houses, and the barn to Train's hotel were burned to the ground. The loss will be \$80,000, with little insurance.

TRAGEDIES AT CHICAGO

Four Cases for the Coroner to Look Into.

SUICIDE OF A JEALOUS WOMAN.

While Dependent She Swallows Poison and Dies—Not Her First Attempt—An Unknown Floater Found in the Lake with Both Legs Cut Off—The Body of an Insane Woman Taken from the Water—Suicide of a Shoemaker. CHICAGO, May 16.—It was her second attempt and this time the suicide failed. Five months ago Mrs. Elsie Watson, who lives at 4611 South Ashland avenue, in her jealousy of her husband, in her desperation she drank carbolic acid, but not so much that with medical attention her life could not be saved. Friday she grew dependent and again swallowed some poison, the nature of which is not known. During the afternoon she died. The coroner held an inquest and decided the woman took her own life while dependent.

Thrown into the Lake by a Train.

With both legs freshly cut off at the knees the dead body of an unknown man was found 150 feet from the shore at Sixteenth street Saturday morning, just below the Chicago, Burlington and Quincy railroad bridge. The body had been in the water several days, and it is supposed that it was thrown there by a passing freight train, which first ran over the man in the dark. The body is at Klanner's morgue on Monroe street. The trousers, which are held in place by a waist strap, indicate that the man may have been a laborer. He was about 25 years old, 5 feet 7 inches in height and weighed 180 pounds. An Insane Woman Found Dead.

With long, gray hair tangled about her face, the dead body of a woman 60 years old at least was found, face up, in the lake in the rear of the Marine hospital early Saturday. Matthew Bristol, walking along the shore, found the body, which was taken to 306 Lincoln avenue. Early Friday evening Maria Demanasker, an inmate of the insane asylum at Danning, escaped, and it is thought the body is that of the demented woman, who either wandered into or threw herself into the lake. The woman was dressed in blue calico with white dots, much like those in use at Danning. The body was that of a slender woman, 5 feet 3 inches in height and weighing 120 pounds.

Took "Rough on Rats."

James Lynch, who he called at 94 East Indiana avenue Saturday morning to see the shoemaker about his shoes, which he expected would be sewed mended, did not find him. The shoemaker, John Marsh, was lying dead in his little basement shop with two empty bottles of "rough on rats" by his side. Marsh was dependent because his wife did not like him well enough to live with him. Friday evening he seemed cheerful enough, but some time during the night he concluded to die, bought the necessary poison and his body is at Klanner's morgue awaiting an inquest.

OTHER CHICAGO ITEMS.

A Girl Arrests a Robber at the Point of a Revolver.

CHICAGO, May 16.—An exciting incident took place at Madison and Halsted streets Friday night about 8 o'clock. A handsomely dressed young woman suddenly broke through the crowd in front of Wolf's clothing store, and the dancing was suspended. The woman, who was carrying a revolver, arrested a robber at the point of a revolver. "You're the rascal that snatched my pocketbook last Tuesday evening," said the young woman, her eyes blazing with a dangerous light. "Don't you try to get away or I'll shoot." The man, who was added as the fellow attempted to make off.

Taken to the Station.

The gathering crowd attracted the attention of Officers Ward and Howe, of Desplaines street station, and the dumfounded youth was placed under arrest. Officers Ward and Howe took the fellow to the Desplaines street station, where Capt. Hayes put him through a sharp examination. He gave the name of Fred F. Unruh, aged 22. He claimed to be a native of Heardsboro, Ill., and said he came to the city a month ago in search of work. He said he was living at 141 Webster street, and that Michaelson positively identified him as her assistant, and the prisoner was locked up.

Not So Ill as Reported.

CHICAGO, May 16.—John C. Bault, who was taken sick in the board of trade building Friday and was reported to be in a serious condition from a stroke of paralysis, is not so ill as was feared. He will be about in a day or two, it is expected.

Startling News of Kidnappers.

NEW YORK, May 16.—Residents of Plainfield, N. J., had not recovered from their surprise over the elopement of Mrs. E. A. Brown, when the elopement of Mrs. E. A. Brown was announced Thursday by the news that the erring pair had come back to the city in order to carry away more property which to realize money. They did not stay long, however, but were soon driven away in a carriage to escape arrest.

Gobbled by the Canadian Pacific.

WINNIPEG, Man., May 16.—It now seems to be an absolute certainty that the Canadian Pacific line will purchase the Western Pacific lines in Manitoba. It was suddenly asserted yesterday that the deal between the roads had been completed and that the Canadian Pacific railroad takes all the Manitoba lines and terminals of the Northern Pacific almost immediately.

The Scotch-Irish Congress.

LOUISVILLE, Ky., May 16.—President Robert Bonner, of New York, called the Scotch-Irish congress to order Friday and introduced Rev. Dr. Thomas Murphy, of Philadelphia, who spoke interestingly of "The Scotch-Irish and the South." The congress was adjourned at 10 o'clock. Mr. Bonner was re-elected president.

The Kaiser's Narrow Escape.

BERLIN, May 16.—While the Kaiser was driving to Potsdam Friday in the carriage presented to him by the czar the horses balked and the carriage collided with a tree. The Kaiser was falling out when his adjutant caught him in his arms and saved him from injury. It was a narrow escape.

Cabinet Crisis in Portugal.

LISBON, May 16.—The Portuguese cabinet has resigned. The situation is critical.

WELCOME RAIN IN MICHIGAN.

The Forest Fires Can Not Do Very Much More Damage.

TRAVERS CITY, Mich., May 16.—The danger from the forest fires in the west end of the state is believed to have been passed, and the only destruction now possible will come in the half cleared districts where the coals still smolder in old stumps and dry brush on the ground. For a few hours early Friday morning there was a panic along the line of the Western Michigan railway when a lively wind sprang up and set the flames in motion again. They burned a number of small shanties and farmhouses and threatened some valuable mills.

Rain Begins to Fall.

At 6 or 7 o'clock a wind, which was nearly a gale, sprang up and blew fiercely from the north until 11 o'clock. Its coming was hailed with relief by timber men, for it can only drive the fire back over the district already scorched by the flames of a week ago. At noon rain fell heavily, and gave what is believed to be the final stroke in this section. Should the rain continue the most dangerous fire that has threatened this part of Michigan in twenty years will be completely drowned out. For the first time since last Thursday week people are breathing easily.

MRS. DUNCAN WILL NOT DIE.

She Is Pronounced Out of Danger—Who Her Husband Is.

LONDON, May 16.—Mrs. Richard C. Duncan, the American lady who was murdered by her husband a few days since at Bettws-y-Coed, and whose life was despaired of is reported as being out of danger. This gives hope that the mystery which has thus far attended the crime will be dispelled. The public prosecutor has undertaken the prosecution of Duncan, who is now held by the authorities without bail.

Something About Richard Duncan.

WASHINGTON CITY, May 16.—Richard C. Duncan, accused of attempting to murder his wife in the mountains of Wales, is the son of Dr. Thomas Duncan, an Episcopal clergyman of Barville, Md. Duncan is 34 years old, has spent much of his time in this city, and has relatives here. Over a year ago he left for a pleasure tour of Europe. For several months his relatives have only heard of Duncan indirectly, and for a number of weeks they have heard nothing at all from him. His trip was purely one of pleasure.

WRECK ON THE MILWAUKEE ROAD.

Its Extent Not Known Owing to the Reticence of Officials.

PORTAGE, Wis., May 16.—Friday night the through vestibuled passenger train from Chicago to Milwaukee on the Chicago, Milwaukee and St. Paul railway was wrecked near Columbus. The railway officials at this point are non-communicative, and it is impossible to ascertain how serious the disaster is. It is known, however, that the engine and at least one mail car are in the ditch. Several locomotives with wrecking crews have already left here for the rescue, and much excitement prevails.

Married an American Girl.

WASHINGTON CITY, May 16.—A young Mexican attached to the legation has found the girl of his choice in a Washington jewelry store and married her. There are "social circles" are excited as they have not been since last winter when the son of one of the South American ministers married the daughter of a partially bankrupt American banker. The principals in the latest event are Carlos Sublety Mora of the City of Mexico and Minnie M. Darns of Georgetown. They were married last week in Baltimore at the residence of Cardinal Gibbons.

Dynamite Outrage in Missouri.

OAK GROVE, Mo., May 16.—The house of Daniel Morgan, a quiet and reputable citizen, three miles south of this place, was demolished by an explosion of dynamite Friday night. It is not known who perpetrated the outrage. Mr. Morgan's collection house was broken, and he was otherwise injured. Mr. Morgan was badly injured, though not fatally. His two children, a boy and a girl, were blown twenty yards through a tree top, and alighted on a fence. He was not badly hurt.

Set Fire to Mail Matter.

CINCINNATI, Ohio, May 16.—John Cochran, the 19-year-old son of well-to-do parents, was arrested Friday charged with a curious offense. For months mail has been found in many boxes partially burned. The authorities have not confined to any one section of the city, but more frequent on Walnut hill and the thoroughfares leading to it. By accident Cochran was discovered throwing lighted matches in the boxes and arrested. Many valuable letters were destroyed.

Had Better Keep His Mouth Shut.

JACKSONVILLE, Fla., May 16.—M. Ballard was Friday sentenced to nine months in the Marion county jail for pension frauds. While being taken to the jail he threatened that when his sentence was completed he would return and shoot every man who had had anything to do with convicting him. He was taken to court and Judge Swaine doubled his sentence and ordered him to be confined in the penitentiary at Columbus, Ohio.

Mountain Justice.

DEMERSVILLE, Mont., May 16.—A gambler named Jurden, who had killed a rancher for \$4, was arrested and taken before Justice Shepherd, who discharged him. Citizens immediately re-arrested him, and during the night of him and his body were found. Justice Shepherd was ordered to leave town within twenty-four hours and obeyed.

Death of Mrs. D. T. Litter.
Mrs. D. T. Litter, died Friday night at 10 o'clock at the family residence in Springfield, after an illness of a week's duration. She had been suffering for some time past with erysipelas in a mild form, but during the latter part of last week, the disease began to assume a more violent form, and made such an inroad that medical aid was without avail. Though her condition was very serious, death was wholly unexpected Friday night.

Mrs. Litter's maiden name was Grace Gillett, and she was born in Cornland, Logan county, Ill., March 1, 1849, and was a daughter of the late Hon. John D. Gillett, of Elkhardt, who died Aug. 5, 1888. She was married to Hon. David T. Litter at her father's house on May 6, 1884, and was his second wife. She is survived by her husband, her aged mother, Mrs. Lemira Gillett, six sisters, Mrs. J. E. Hill, of Chester, and Mrs. Richard J. Oglesby, and the Misses Nina, Annie, Jessie and Charlotte Gillett, all of Elkhardt, and one stepson, Stephen Litter.

No More Short Line Lights.
The Short Line street car people have sold their lighting machinery, circuit and business to the Decatur Electric company, and yesterday turned the business over. The Short Line company will confine itself to the street car business hereafter. The Decatur Electric company will at once move the light plant from the street car power house to its own station, and the Short Line will fill up the space thus made vacant with a new dynamo for the street car circuit. That will so increase its power that it can run 30 cars if necessary. The railroad service will be extensively improved at once. The equipment now in use is over taxed.

Death of Thomas Welsh.

The funeral will be held at 2 o'clock Monday afternoon from St. Patrick's church.

Father Lammert's Vacation.
Father Lammert, of St. James' German Catholic church, will leave on June 1st for a six months vacation, which he will spend in Europe. Most of the time will be passed in Germany. He goes there in the hope that the change will improve his health, which has been poor the last few months. Father Lammert is very popular, not only in his own parish, but throughout the city. All who know him are his friends, and they hope to see him return fully recovered.

A Birthday Surprise.
The birthday of Mrs. David Leech, living at 209 South Webster street, was celebrated yesterday by her friends, most of whom came in from the country, unexpectedly to her. The two passenger trains meet there and the lady became confused and did not know which train to take. She finally said she would take the train that had the handsomest conductor. A Great Event.
The May festival held in Decatur several years ago was talked about for months afterward. It was a wonderful success, and did more to advertise the city than any other gathering that had ever been held here. The present festival promises to be of much more importance, both in musical excellence and finish, and attendance. The sale of seats shows that the attendance will be large. While there are still good seats to be had, so many have been reserved already that it is very doubtful if one will be left by the night of the first concert.

The pains that is being taken to make the music of the very best has already been described here. For months the 400 members of the chorus have been meeting regularly twice a week and practicing hard at other times. As this chorus is composed of persons with good voices and an unusual amount of musical culture already, the progress made as a result of this severe training must be great indeed. Though the music is difficult, the ability of the musicians is fully equal to it.

Any one who has witnessed a rehearsal of the Decatur part of the chorus under the leadership of Professor Lutz, and observed the marvelous control he has over the voices, the exactness with which they blend together, the grand effect thus produced by one fourth of the whole chorus, cannot help wondering if there ever was anything more grand, more sublime, than the music by the whole chorus will be, supported by the well trained orchestra of 30 pieces. Such music is not often heard. It is never heard except in the great musical centers of the world.
